GLITTER Suspension Base

GLOSS

Properties of gloss are immediate and have a high rate of reflection. Gloss sustains over a long period of time.

This suspension base is designed to support large Mica/Polymeric flake while imparting gloss. Large particles are able to be distinguished through the transparent-like lacquer.

Formulated without

- Toluene
- Formaldehyde
- DBP
- Camphor

APPLICATION

This self-leveling formulation allows for an even distribution on the nail.
