

*The new generation
of natural remover*

Your transition to a naturally occurring nail polish remover

The majority of solvents on the market contain **ingredients of petrochemical origin** that can be harmful to both health and the environment.

We have **natural and biobased solutions** adapted to your needs.

Our laboratory has developed customizable master formulas, some of which **can be eco-certified**.

- Effectiveness (make-up removal power) ✓
- Texture and color ✓
- Drying ✓
- Odour ✓
- Personalization by your assets ✓
