Company Background

QUALITY, FLEXIBILITY, ENGAGEMENT

A pillar of the cosmetics industry around the world, French cosmetics is rich in innovative and high-quality brands and subcontractors. Founded more than 30 years ago, Center 7 is recognized by the most prestigious French and international brands. As a private label manufacturer, Center 7 is your cosmetic and hygiene contract manufacturer, OEM. We support you at every stage of your development or production of your product. Creator of formulas, cosmetic contract manufacturer, filler, co-packing, we are your partner throughout the value chain or individually at each stage according to your needs. Whatever the life cycle of your product: new product, relaunch, repositioning, technological subcontracting or capacity subcontracting, we will meet your requirements and your expectations. Our culture is tailor-made.

OUR INSPIRATION

Flowers are the music of the
ground. From earth's lips spoken
without sound.

—Edwin Curran

Aromasqualane

Squalane is an amazing natural ingredient for skincare. Naturally present in our own body, squalane is one of the most common lipids produced by human skin cells, accounting for around 14–16% of our sebum. **The concept of aromasqualane** is to join your cosmetic product with flowers. It will add value to your product and more importantly bring **benefits to the skin**. This alliance is very bountiful!

Skin benefits

WHY OUR SKIN LOVES IT ?

As it mimics our body's natural moisturizers, it quickly penetrates the skin and is absorbed completely.

- Squalane is colourless, odourless, and non-comedogenic, which means it won't clog pores. Squalane also has excellent compatibility with other ingredients.
- It reduces the loss of transepidermal water to restore suppleness to the skin, without leaving an oily residue, to regain healthy skin. It also has good skin biocompatibility and is not irritating.
- Rich in antioxidants. Like retinol, this oil is believed to fight free radicals in the skin which are caused by UV rays from the sun and destroy skin cells and damage the skin's natural collagen. Squalane spreads easily to the skin and penetrates deeply, so it can help reduce the appearance of fine lines and wrinkles, and also fight ageing by protecting the skin.

TO HELP YOUR SKIN

Although squalane is produced naturally by the body, production begins to slow down from the age of 20, and it drops dramatically after the age of 30, contributing to dry skin.

CRUELTY FREE

Natural squalene can be created synthetically or extracted from plant sources like amaranth seeds, olives, palm, rice bran, and wheat germ. This plant derivative makes it possible to have an animal-friendly alternative, to abolish animal cruelty specifically towards sharks, while benefiting from the same results.

+ Benefits

MOISTURIZE

Using a moisturizer with squalane can help restore the skin's oil balance. It will lubricate the surface of the skin and can help achieve a softer skin texture and a smoother appearance without fat.

SENSITIVE SKIN

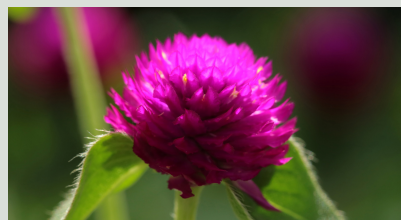

This liquid also contains antibacterial properties and may be effective in treating symptoms of eczema. People with acne can reduce excess sebum production by using it as a spot treatment to balance skin tone.

SCARS

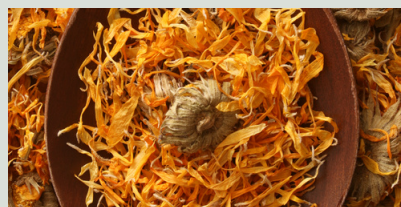

Squalane is believed to have a number of positive effects on uneven skin pigmentation, scars, and dark spots. Using beauty products that contain squalane can erase these marks over time due to the oil's ability to sink deep into the skin and repair it.

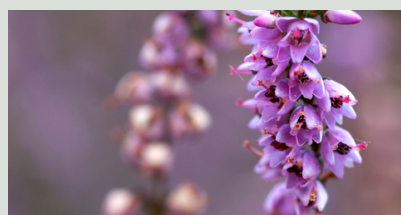

Some of our Different flowers

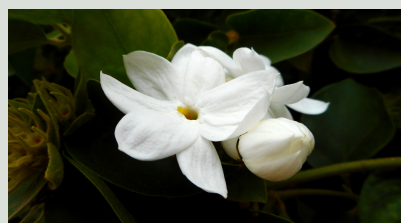

- **AMARANTHE PHYTPEEL** *One of its specificity is not withering. Therefore, it's a symbol of immortality. It has also antioxidant properties and anti-inflammatory.*

- **CALENDULA (SOUCIS) PHYTPEEL** *It is considered beneficial in reducing inflammation and promoting wound healing. It has been used to treat a variety of skin diseases like eczema.*

- **BRUYERE PHYTPEEL** *It has shown to present the best antioxidant activity.*

- **JASMIN PHYTPEEL** *It is rich in flavonols, well known for its antioxidant properties. Often used for its aromatic properties.*

- **ROMAN CAMOMILE PHYTPEEL** *It may speed the healing of skin ulcers, wounds or burns, and also reduces skin inflammation. Effective for atopic eczema and other rashes;*
